Customer information on conflict minerals

Company Revatech s.r.o. understands seriousness that minerals mined in conflict areas may become part of the electronics supply chain. We are aware of social, environmental and economic responsibility.

We are trading company and we are not involved in a direct import of minerals. We cooperate only with reliable, worldwide known manufactory with good reputation. Our aim is to ensure the material transparency and its origin.

We confirm that traded goods do not contain so called conflict minerals from illegal or unethical sources.
